

Virtual Encounter on Slack platform and Zoom

The event platform Slack: free discussion and advertisement

- Posts (text, attachments, videos, pictures, links)
- Employer presentations/introductions, work placement and job offers, career opportunities and commenting the offers
- Students'/job seekers' introductions
- Discussing thesis topics
- Private messages between employers and students/job seekers
- Discussions concerning work search and employment

Virtual Live Events in Zoom: info sessions and employer stands

- Follow Slack's platform for news where we inform about the schedule and program of the live events.
- Virtual Live Events are networking events for employers and students at virtual stands: Come to Zoom's conference room, and the receptionist will move you to the employer's separate virtual stand room, to network and discuss job opportunities. Change the room and visit all interesting employers. It might be that you urgently or soon need a job, or just information on the possibilities in your field of studies, or how to search for a job (etc.).
- Info sessions by professionals: Come to Zoom and hear the best tips for getting employed!
